OWNER'S MANUAL

Model: DMS-TR-12V-5.0 (5302035)

(Electric Dry Material Broadcast Pull-Behind Spreader)

Warranted against manufacturer or workmanship defects from date of purchase with copy of receipt:

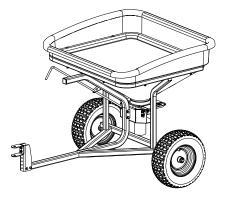

Homeowner Usage: One Year.

Commercial Usage: 90 Days.

Model: DMS-TR-12V-5.0 (5302035)

(Electric Dry Material Broadcast Pull-Behind Spreader)

Technical Specifications

- Hopper Capacity: 5.0 Cu. Ft.
- Spread Width: 5' to 45'
- 12 Volt Motor w/Variable Speed Control (VSC)
- Stainless Steel 6-Blade Radial Fan
- Holds Up To 220 lbs. Potash
- Hitch height adjustment to match vehicle's hitch height
- 16x6.50-8 Pneumatic Turf Tires

~~~~~IMPORTANT~~~~~~

Check all hardware before each use. Check for wear and fatigue, make sure all bolts are properly tightened and all pins are securely in place. Make sure spreader is securely fastened before use.

Improper installation and operation could cause personal injury and/or equipment and property damage. Use eye, hand and breathing protection appropriate to the materials that you are spreading. Read the manufacturers or suppliers

labels for proper protective equipment.

Read and follow the manufacturer's instructions and notes for spreading and handling materials used for spreading.

<u>Read and Understand the Owner's Manual for your material spreader</u> completely before assembling or using. Assemble, test and use in accordance to spreader manual instructions.

Read and Follow all labels and the Owner's Manual for material spreader.

Exercise Caution in vehicle handling when using material spreader to avoid loss of control or overturning. **Keep bystanders** away from operating spreader.

Do Not allow anyone to ride on or sit with you when operating the spreader.

Before operating spreader verify safety guard is in place.

Before operating spreader reassemble any parts or hardware removed for cleaning and adjusting.

Before operating spreader remove materials, such as cleaning rags, brushes and hand tools from spreader.

Keep all parts in good condition and properly installed. Fix damaged or worn parts immediately.

Before servicing spreader wait for spinner to stop.

Disconnect power before servicing or performing maintenance.

Never attempt to break up material inside hopper with hands or feet.

Do Not leave unused material in hopper. Material can freeze or solidify, causing unit to not work properly.

Do Not pressure wash motor or electrical components as damage may occur.

Empty and Clean after each use. Never remove spreader with material in hopper.

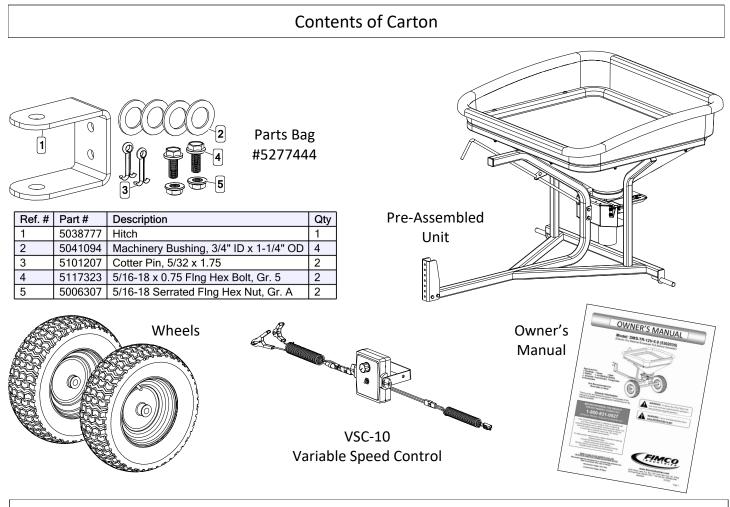

Keep hands, feet, hair and clothing away from moving/rotating parts.

Material to be spread can be dangerous. Improper selection, application, use or handling may be a hazard to persons, vehicle or other property. Follow instructions and precautions given by the material manufacturer.

Controller is not serviceable, if controller does not function, it will need to be replaced.

Do Not modify spreader or safety devices and guards.

Improper use of this spreader or handling of materials to be spread could result in serious injury or illness, or could cause damage to the environment. Always use protective gear.

Assembly Instructions

- Make sure the contents of the carton match the items shown above.
- Follow these instructions to complete assembly of the Dry Material Spreader.

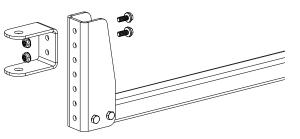

Proper care and maintenance will prolong the life of your spreader.

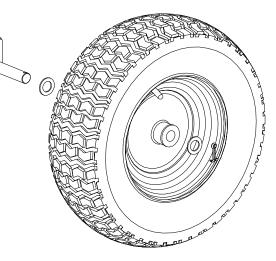

<u>Step 1</u>

Fasten the hitch to the hitch bracket with the (2) $5/16'' \times 3/4''$ screws and (2) whiz nuts.

<u>Step 2</u>

Slide a machine bushing over the axle, then a wheel (valve stem out) and another machine bushing. Secure with a cotter pin. Repeat on the other axle.

Installation & Operation Instructions

- 1. Attach the spreader to the hitch.
- 2. Use 12V motor controller (battery cable) clip to connect directly to the battery. Connect to the red clip (wire) to the positive (+) terminal first, then connect the black clip (wire) to the negative (-) terminal.

Route 12V motor controller battery cable and 12V motor controller (motor cable) securely and carefully to prevent damage from moving parts and exhaust heat.

Turn the Motor Controller switch to the OFF position before connecting to motor cable.

Set the Motor Controller to the number "5" and switch the fan motor on. The fan should run at ½ speed. Rotate to number "10" for full fan speed and then rotate to number "1" for slowest fan speed.

This should be done without material in the hopper and the slide gate closed.

When disconnecting, make sure Motor Controller switch is OFF, disconnect the motor cable from the motor. Then disconnect the negative (black) connection and finally the positive (red) connection.

Operation

Replace or repair loose or missing components. Operate controls and switches to make sure they respond correctly. Conditions of weather and terrain must be considered when setting spreader. Do not spread on windy days, with light weight materials, such as grass seed. Protective clothing must be worn in some cases.

1. Determine vehicle speed:

If vehicle does not have a speedometer, determining speed can be accomplished by marking off 100, 200 or 300 feet. The speed chart indicates the number of seconds it takes to travel the distances. Using a watch or stop watch for time, travel into and out of the marked distance for a more accurate application speed.

See the recommended speeds/settings later in this manual. SPEED (MPH) = Distance (Ft.) x 60/Time (seconds) x 88

2. Set Electronic Speed Control:

Adjust speed control to set the spread width. The highest fan speed will spread the widest pattern.

After adjusting the speed control to the desired width for the material you are using. Leave the dial on this setting and use the power switch to turn the fan on and off.

3. Set Opening Gauge Control:

Refer to the settings chart for proper settings. Loosen wing nut and move gate slide gauge to the desired setting. Tighten wing nut.

4. Adjust Pattern Adjust Ring Position to Center Spread Pattern:

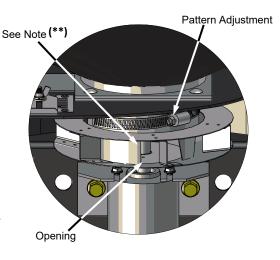

If the spread pattern is off-center, adjust by rotating the pattern adjusting ring. This adjustment is only require if the material density has dramatically changed. Pattern adjust ring has been set at the factory for UREA.

CAUTION: Making adjustments with spinner running is unsafe. Never adjust pattern ring with spinner powered. Make sure motor controller switch is OFF and disconnect the motor cable from the motor before doing any pattern adjusting.

◆ Loosen worm gear clamp only enough to allow pattern adjust ring to be removed with slight force.

◆ Adjust pattern ring to re-center spread pattern:

If pattern is too heavy to the driver's right, rotate the pattern adjust ring clockwise (as viewed from the top) until the pattern is even. If pattern is too heavy to the driver's left, rotate the pattern adjust ring counterclockwise (as viewed from the top) until the pattern is even. Retighten the worm gear clamp to a snug fit. **DO NOT OVER-TIGHTEN!**

NOTE: To return the pattern adjust ring to the factory setting, simply align the pattern adjust ring to the center of the mounting plate, **as pictured above (**).**

Speed Chart				
Speed in M.P.H.		equired in s avel a distan		
(Miles Per Hour)	100 Ft.	200 Ft.	300 Ft.	
1.0	68 sec.	136	205	
2.0	34	68	102	
3.0	23	45	68	
4.0	17	34	51	
5.0	14	27	41	

Do not fill and transport over long distances. This will result in material packing and caking. Remove and clean all material at the end of your spreading day.

Cleaning/Storing

- 1. Remove and clean all material from the hopper.
- 2. Rinse inside and outside of hopper and dry before storing.
- 3. Motor and Motor Controller are NOT water resistant. Do Not submerge into water or use high pressure sprayers to clean.
- 4. The spreader should be stored in a dry area.

	Troubleshooting Guide					
Symptom	Possible Cause	Action				
	1. Loose or corroded connection	1. Clean, check and reconnect				
	2. Speed Control Light is OFF	2. Check fuse. Replace if necessary				
		3. Adjust battery clamp contact				
		4. Replace or repair damaged wiring				
	5. Over or Under voltage	5. Power to harness connected to aux. circuit; Connect direct to battery				
	6. Controller is not functioning	6. Bypass the controller, by connecting the wires together				
Erratic Spread Pattern	Spinner Shaft Set Screws Loose	Tighten Set Screws				
Gate will not close or open	Fertilizer around Slide Gate	Remove slide gate and clean after emptying hopper of material				
Gate will not stay	1. Friction washer is lost or worn	Replace friction washer				
open or closed	2. Friction washer is in place	Bend slide gate arm up to tighten and down to loosen gate action.				

This is information off the sticker on the hopper.

8	80	9	Safe Step				

Do Not Use any kind of agitation clip with Ice Melt products when using speed dial setting at less than 4

If your rate is different than what shows on the charts, you will need to adjust the gate setting accordingly. It would be suggested to mark off 1000 sq. ft. and spread, checking your spread pattern and rate before spreading your field.

If the material you're spreading is not in one of these charts, match it to the closest material in the charts and check your spread pattern and rate. If needed, you will adjust from those settings.

Finco assumes no liability pertaining to seed rates claimed with this spreader. Rates listed on chart are generic for the U.S.A. and should be used as a starting point or guide only. Check with your local extension office or state for official application rates. Seed rate chart gate settings were calibrated through in house testing with spreader. Use lower rates on more productive soils. Seed rates, gate settings, and information listed is subject to change without notice.

IMPORTANT!! To prevent spreading miscalculations, make field checks to be sure you are spreading at the desired rate.

Warranty

LIMITED WARRANTY FOR NEW FIMCO, IND. EQUIPMENT

WHO MAY USE THIS LIMITED WARRANTY. This limited warranty (the "Limited Warranty") is provided by Fimco, Ind. to the original purchaser ("you") of the Equipment (as defined below) from Fimco, Ind. or one of Fimco, Ind.'s authorized dealers. This Limited Warranty does not apply to any subsequent owner or other transferee of the Equipment. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

WHAT THIS LIMITED WARRANTY COVERS AND FOR HOW LONG. Fimco, Ind. warrants that any new Equipment will be free from defects in material and workmanship for a period of **one (1) year** (homeowner), **90 days** (commercial user), after delivery of the Equipment to you (the "Warranty Period"). The Warranty Period is not extended if Fimco, Ind. repairs or replaces the Equipment.

WHAT IS NOT COVERED BY THIS LIMITED WARRANTY. This Limited Warranty does not apply to: (1) used Equipment; (2) any Equipment that has been altered, changed, repaired or treated since its delivery to you, other than by Fimco, Ind. or its authorized dealers; (3) damage or depreciation due to normal wear and tear; (4) defects or damage due to failure to follow Fimco, Ind.'s operator's manual, specifications or other written instructions, or improper storage, operation, maintenance, application or installation of parts; (5) defects or damage due to misuse, accident or neglect, "acts of God" or other events beyond Fimco, Ind.'s reasonable control; (6) accessories, attachments, tools or parts that were not manufactured by Fimco, Ind., whether or not sold or operated with the Equipment; or (7) rubber parts, such as tires, hoses and grommets.

HOW TO OBTAIN WARRANTY SERVICE. To obtain warranty service under this Limited Warranty, you must (1) provide written notice to Fimco, Ind. of the defect during the Warranty Period and within **thirty (30)** days after the defect becomes apparent or the repair becomes necessary, at the following address: Fimco, Ind., 1000 Fimco Lane, North Sioux City, SD 57049; and (2) make the Equipment available to Fimco, Ind. or an authorized dealer within a reasonable period of time. For more information about this Limited Warranty, please call: **800-831-0027**.

WHAT REMEDIES ARE AVAILABLE UNDER THIS LIMITED WARRANTY. If the conditions set forth above are fulfilled and the Equipment or any part thereof is found to be defective, Fimco, Ind. shall, at its own cost, and at its option, either repair or replace the defective Equipment or part. Fimco, Ind. will pay for shipping and handling fees to return the repaired or replacement Equipment or part to you.

LIMITATION OF IMPLIED WARRANTIES AND OTHER REMEDIES. THE REMEDIES DESCRIBED ABOVE ARE YOUR SOLE AND EXCLUSIVE REMEDIES, AND FIMCO, IND.'S SOLE LIABILITY, FOR ANY BREACH OF THIS LIMITED WARRANTY. TO THE EXTENT APPLICABLE, ANY IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIM-ITED IN DURATION TO THE WARRANTY PERIOD, AND THE REMEDIES AVAILABLE FOR BREACH THEREOF SHALL BE LIMITED TO THE REMEDIES AVAILABLE UNDER THIS EXPRESS LIMITED WARRANTY. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. IN NO EVENT SHALL FIMCO, IND.'S LIABILITY UNDER THIS LIMITED WARRANTY EX-CEED THE ACTUAL AMOUNT PAID BY YOU FOR THE DEFECTIVE EQUIPMENT, NOR SHALL FIMCO, IND. BE LIABLE, UNDER ANY CIRCUMSTANCES, FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL OR PUNITIVE DAMAGES OR LOSSES, WHETHER DIRECT OR INDIRECT. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.
